

Dr. Priya Sharma

Clinical Informatics Lead | FEDIP Senior Practitioner Candidate

 priya.sharma@nhs.net  +44 7700 900567  Leeds, UK  [linkedin.com/in/priyasharma-informatics](https://www.linkedin.com/in/priyasharma-informatics)

Professional Summary

Experienced Clinical Informatics Lead with 8 years in health and social care IT, combining clinical nursing background with technical expertise. Proven track record in EPR implementation, clinical system optimisation, and digital transformation within NHS settings. Passionate about using informatics to improve patient safety, clinical outcomes, and healthcare efficiency. Strong advocate for evidence-based practice and professional standards in health informatics.

Professional Experience

Clinical Informatics Lead

Jan 2021 – Present

Leeds Teaching Hospitals NHS Trust

- Lead clinical informatics team of 8 supporting EPR (Epic) across 2,500-bed acute trust
- Act as bridge between clinical staff and IT, ensuring systems meet clinical workflows
- Manage clinical system configuration, build, and optimisation for 15,000+ users
- Lead digital clinical safety activities including DTAC compliance and DCB0129 assessments
- Chair Clinical Informatics Steering Group reporting to Chief Clinical Information Officer
- Deliver benefits realisation for £45M EPR programme including measurable patient safety improvements
- Reduced medication errors by 32% through electronic prescribing optimisation
- Implemented real-time sepsis alerting reducing recognition time from 4 hours to 45 minutes
- Developed clinical informatics competency framework adopted trust-wide
- Mentor junior clinical informaticians and digital nursing fellows

Senior Clinical Systems Analyst

Mar 2018 – Dec 2020

Yorkshire Ambulance Service NHS Trust

- Led implementation of electronic Patient Care Record (ePCR) across 1,200 ambulance staff
- Designed clinical decision support tools for paramedic crews
- Managed integration with hospital systems for patient handover data
- Conducted training needs analysis and delivered train-the-trainer programmes
- Produced data quality reports and dashboards for operational and clinical teams
- Achieved 98% adoption rate within 6 months of go-live

Clinical Systems Specialist

Sep 2016 – Feb 2018

Bradford District Care NHS Foundation Trust

- Supported implementation and optimisation of RiO electronic patient record
- Gathered requirements from mental health and community clinical teams
- Created clinical forms and pathways within EPR system
- Provided 2nd line support and training for clinical users
- Participated in information governance and clinical safety reviews

Staff Nurse (Band 5)

Sep 2012 – Aug 2016

St James's University Hospital, Leeds

- Worked in Acute Medical Unit and later specialised in Oncology
- Early adopter and clinical champion for ward-based digital systems
- Participated in nursing informatics working group
- Developed interest in how technology can improve patient care

Education

MSc Health Informatics – Distinction

2016 – 2018

University of Leeds (Part-time alongside employment)

- Dissertation: "Measuring Clinical Benefits of Electronic Prescribing: A Mixed Methods Study"
- Modules: Clinical Decision Support, Health Data Analytics, Digital Health Strategy, IG & Ethics

BSc (Hons) Adult Nursing – 2:1

2009 – 2012

Leeds Beckett University

- Registered Nurse (Adult) – NMC Registration

FEDIP Competence Areas

Information Governance (L5)

Clinical Safety (L5)

EPR Implementation (L5)

Clinical Decision Support (L5)

Health Data Quality (L5)

Change Management (L5)

Stakeholder Engagement (L5)

Training & Development (L5)

Benefits Realisation (L5)

Digital Strategy (L4)

Technical Knowledge

Epic EPR

SystemC RiO

Cerner

HL7/FHIR

NHS Spine

SNOMED CT

ICD-10

SQL Basics

Power BI

Microsoft 365

Professional Registrations & Memberships

- Nursing and Midwifery Council (NMC) – Registered Nurse (Adult)
- BCS, The Chartered Institute for IT – Member (MBCS) since 2019
- BCS Health and Care – Active Member
- Faculty of Clinical Informatics – Member since 2020
- NHS Digital Academy – Alumni (2022)

Certifications

- NHS Digital Academy Digital Health Leadership Programme (2022)
- Epic Certified – Clinical Informatics (2021)
- DCB0129 Clinical Safety Officer Training (2020)
- PRINCE2 Foundation (2019)
- Information Governance Toolkit – Level 3 (Annual)

Continuing Professional Development

- AI in Healthcare – NHS England Webinar Series (2024, 12 hours)
- FHIR Standards Workshop – INTEROPen (2023, 16 hours)
- Clinical Safety in Digital Health – Digital Health Networks (2023, 8 hours)

- Leadership in the NHS – NHS Leadership Academy (2022, 30 hours)
- Regular attendee: HETT, Digital Health Rewired, EHI Live conferences
- BCS Health SG – Presented at 2 events on clinical benefits realisation

Key Achievements

- Project lead for HIMSS Stage 6 preparation at Leeds Teaching Hospitals
- Co-author: "Optimising Electronic Prescribing Safety Alerts" – BMJ Health & Care Informatics (2023)
- Winner, NHS Digital Pioneer Award – Best Clinical Informatics Initiative (2022)
- Developed clinical informatics career pathway framework adopted by 3 trusts in Yorkshire
- Contributed to NHS England clinical informatics competency standards consultation

Patient Safety & Outcomes

- Led clinical safety hazard log management for all digital changes
- Implemented closed-loop medication administration reducing never events
- Developed standardised nursing assessments improving documentation completeness to 95%
- Created real-time patient deterioration dashboard supporting early warning response

Publications & Presentations

- "Optimising Electronic Prescribing Safety Alerts" – BMJ Health & Care Informatics (2023)
- "The Clinical Informatician's Role in EPR Success" – EHI Live Conference (2023)
- "Digital Nursing: Bridging Clinical and Technical Worlds" – Digital Health Rewired (2022)
- Internal blog series on clinical informatics best practices (15+ articles)
