Professional Summary

Results-driven Software Engineer with 6 years of experience in designing, developing, and implementing software solutions. Demonstrated expertise in full-stack development, cloud technologies, and agile methodologies. Strong track record of delivering high-quality technical solutions while mentoring junior team members. Seeking IEng registration to formalise professional standing and commitment to engineering excellence.

Professional Experience

Senior Software Engineer

Jan 2022 – Present

TechSolutions Ltd, Manchester

- Lead development of enterprise resource planning system serving 500+ users across 12 departments
- Architected microservices infrastructure reducing system downtime by 40% and improving response times by 60%
- Mentor team of 4 junior developers, conducting code reviews and providing technical guidance
- Implemented CI/CD pipelines using Azure DevOps, reducing deployment time from 2 hours to 15 minutes
- Collaborated with stakeholders to translate business requirements into technical specifications
- Introduced automated testing framework achieving 85% code coverage

Software Engineer

Mar 2019 – Dec 2021

Digital Innovations Group, Leeds

- Developed and maintained web applications using .NET Core, React, and SQL Server
- Participated in agile ceremonies and contributed to sprint planning and retrospectives
- Designed RESTful APIs consumed by mobile and web applications with 99.9% uptime
- Reduced database query response times by 70% through optimisation and indexing strategies
- Created technical documentation and user guides for complex system features

Junior Software Developer

Sep 2018 – Feb 2019

StartUp Tech, Manchester

- Developed features for customer-facing e-commerce platform using JavaScript and Node.js
- Fixed bugs and implemented enhancements based on user feedback
- Participated in code reviews and pair programming sessions

Education

BEng (Hons) Software Engineering – 2:1

2014 – 2018

University of Manchester

- Dissertation: "Machine Learning Approaches to Predictive Maintenance in IoT Systems"
- Modules: Software Architecture, Database Systems, Network Security, Project Management

Technical Skills

C# / .NET Core

JavaScript / TypeScript

React

Node.js

SQL Server

PostgreSQL

Azure

AWS

Docker

Kubernetes

Git

Azure DevOps

REST APIs

Microservices

Agile/Scrum

Professional Memberships & Certifications

- BCS, The Chartered Institute for IT – Professional Member (MBCS) since 2020
- Microsoft Certified: Azure Developer Associate (2023)
- AWS Certified Solutions Architect – Associate (2022)
- Certified ScrumMaster (CSM) – Scrum Alliance (2021)

Continuing Professional Development

- Cloud Architecture Design Patterns – Pluralsight (2024, 40 hours)
- Leadership Skills for Engineers – IET Workshop (2023, 16 hours)
- Advanced .NET Development – Microsoft Learn (2023, 30 hours)
- BCS Manchester Branch – Regular attendee of technical seminars

Key Projects

Enterprise Integration Platform

2023

- Led technical design and implementation of integration platform connecting 8 legacy systems
- Delivered project on time and 10% under budget, saving £45,000 annually in operational costs
